KOSTER'S BLUE SPRUCE

"NURSEYMEN - ORCHARDISTS"

Harrisons' Nurseries, Berlin, Md., U. S. A.

REDUCED PRICES

Effective July 1, 1921.

The list of varieties and prices contained in this price list supersede all lists of varieties and prices named in any of our previous price lists and catalogs.

We started growing peaches as a commercial proposition solely to make our nursery business more efficient. We found it almost impossible to grow trees in a commercial way in the nursery without having an orchard of standard varieties from which to cut buds. Therefore, we planted four different test-orchards, containing 100 varieties, 6 trees of each variety. In a few years these trees began to bear fruit, and then it became a question of disposing of the crop. We soon found that peach-growing on the Peninsula was profitable, and as a result we increased our orchard plantings year by year, until at the present time we have something over 1000 acres in fruit trees.

Peach Trees—Graded, Ready to Pack and Ship.

HOW TO FIGURE PRICES

Each Rate—In buying fruit trees, less than 10 trees go at "each" rate.

10 Rate—10 or more go at the 10 rate price.

100 Rate—30 or more trees go at the 100 rate.

1000 Rate—300 (or more) of a kind (as 300 apple, 300 pear, 300 peach, etc.) go at the 1000 rate.

Note—The same applies to all other trees and plants.

IMPORTANT—PLEASE READ CAREFULLY
TERMS ON WHICH WE SELL NURSERY
STOCK

Cash must accompany all orders amounting to \$100.00 or less, a cash discount of 5 per cent. being allowed on the total amount.

We will ship larger orders C. O. D. providing 25 per cent. of the total amount of your order is sent in cash. If the order is shipped by express you pay the balance to your express agent upon delivery of goods.

If the order goes by freight, you pay the balance at your bank, where you will also find the bill of lading which you present to your freight agent, who will deliver shipment to you.

NOTE—We allow a cash discount of 5 per cent. on all orders, large or small, for which the total amount of order is remitted before shipment. We do not allow discount of 5 per cent. for balances paid upon arrival of shipment.

We accept Liberty Loan Bonds, at face value

TRANSPORTATION RULES.

We have always made it prominent in our printed terms that our goods are sold f. o. b. cars at the point of shipment and are at the purchaser's risk while in transit. We do not guarantee safe delivery.

The ownership of all goods sold by us passes to the purchaser on delivery by us to the carrier, and the issuing of a receipt by the carrier ends our responsibility. Any claims for damage should be made promptly to the agent at the point of delivery.

Gandy—One of the latest of all Strawberries. Not only does it bring the very highest prices, but yields tremendous crops of a quality that leaves nothing to be desired in flavor, texture, color and keeping qualities. Bright red, with somewhat smooth surface.

Klondyke—Berries uniform, shapely, rich dark red, mild and delicious, very juicy and handsome; sell quickly.

Progressive—Everbearing, pre-eminently a home-garden berry, although the fruit may be shipped short distances if properly packed. The method of raising these berries is the same as for the other sorts, excepting that for the first season all blossoms that come before the first or middle of July should be cut off.

Parcel Post Prices—Should you desire us to ship by Parcel Post, add two cents for each vine when remitting.

CONCORD—Ripens in early August. Fruit dark purple, almost black. Bunches of big berries, juicy, sweet, and delicious. Because of its extremely high merit, Concord has become the most popular grape in the country, and, taking the entire grape territory as a whole, more ConCORDs are now in bearing than any other variety, nor does any other variety seem to succeed over such a wide range of territory in so many different soils. The vines are extremely strong growers and have sufficient vitality to overcome most of the troubles to which grape-vines are subject. The fruit matures early, ships well, and sells well.

GRAPE VINES (Continued)

MOORE'S EARLY—Ripens a little before the Concord. Very deep black, unusually large, and of extra-fine quality. The bunches are medium size, but are held together firmly. They stand handling and shipping unusually well and have an established reputation on all markets. Moore's Early is one of the most profitable varieties.

DELAWARE—Ripens a little later than Concord. Berries are deep red and carried in small, compact bunches; the skin is thin, but quite firm. The flesh is sweet and of the best quality.

NIAGARA—Ripens in late August. Leading white market variety. Bunches of berries large; color greenish white, changing to pale yellow when fully ripe. Bunches and berries large; excellent quality.

Norway Maple

MAPLES

NORWAY Maple for lining the sides of lanes and roads, for the lawn, for streets, for protecting the house from sun and weather and for real permanent worth in landscape planting, there are no other trees so thoroughly valuable as the Norway Maples. They are at home in almost any situation, without regard to soil or climate. The Norway Maples in our nursery have straight trunks, with well-rounded and symmetrical heads. They have been properly cared for by cultivation and by pruning, and are superior in every way.
